ENERGY METERS

FEATURES

FLOW DOES IT ALL

FLOW is not just an ordinary metering system. It introduces a unique solution to calculate utility readings automatically. In fact, FLOW is a combination of Automated Reading and Advanced metering infrastructure. With upgraded features, FLOW is accurate with no room for errors.

SMART METER SYSTEM

MANAGEMENT SYSTEM & MOBILE APP

ANALYTICS TOOL

BILLING SYSTEM

CUSTOMER PORTAL & MOBILE APP

SUPPORT SYSTEM

METERING SYSTEM

STATE OF THE ART TECHNOLOGY

FLOW metering system comprise of Smart Meters equipped with Automated Meter Reading modules, Collector unit built working with ultramodern Communication and IoT technologies, Data Servers maintained in Cloud technology provides an advanced, accurate, reliable and secure metering infrastructure. FLOW hardware components follows a weatherproof, ergonomic design concept to go inline with all weather and aesthetic environment.
